

# A DATA DRIVEN EXPLORATION OF APPLE'S IPHONE IMPACTS IN INDIA

PPROJECT DEMONSTRATION &  
DOCUMENTATION

# Record Explanation Video For Project End To End Solution

- A project normally starts at position 1 1 1 1 (as shown in the in Bars mode, or in Bars and Time mode). You can move the project start point to an earlier position, allowing upbeats or program change commands to be played before  first downbeat. You can also move the project end point; for example,  remove unused at the end of the project.
- When is selected in Logic Pro > Settings > Advanced, the Project Start marker and Project End marker are available in the ruler.
